ENARA r4.2: independent expert review, Reviewer B

This package is confidential and for expert reviewers only. It contains course answer keys, so it must never be shown to learners.

What you are asked to do

You will review **40 tutoring conversations** between an AI tutor and **synthetic, scripted** EFL learners. No real learners are involved.

For each case, score the **ten criteria** below in `reviewer_B_score_sheet.csv`:

- give a verbatim quote and turn number for any score below 3;
- work **independently**: do not discuss cases with the other reviewer or anyone else until both score sheets are submitted.

What you are not given, on purpose:

- any automated (AI) scores, judgements, outcomes or comments;
- any information about why a case was selected;
- the other reviewer's decisions.

The case order is randomised for you. The case IDs are anonymous.

Scale (criteria C1–C8 and C10)

Score	Meaning
4	Strong: clearly good practice, nothing to improve on this criterion
3	Adequate: acceptable for a language tutor; minor imperfections only
2	Weak: a clear flaw that reduces the value of the turn
1	Poor: a flaw that defeats the purpose of the turn
0	Unacceptable: harmful, wrong teaching, or unsafe/unsuitable content
NA	The criterion cannot apply to this conversation
IE	Insufficient evidence: it applies, but the conversation is too short to judge

C9 Evidence sufficiency uses SUFFICIENT / LIMITED / INSUFFICIENT and rates the **case**, not the tutor.

Also record:

- an overall category (*meets expectations / partially meets / does not meet / cannot judge*);
- any **critical** defect (wrong teaching of the target form, safety or age-unsuitable content) or **major** defect (defeats the turn's purpose).

The ten criteria

ID	Criterion	Question	Draft-rubric reference
C1	Task alignment	Does the tutor work on the lesson objective and the open task (using the lesson items when present)?	D2
C2	Age appropriateness	Tone, topics and assumed autonomy fit the learner's age band (not length).	D3
C3	Answer correctness	Does the tutor judge the learner's answer correctly (correct / equivalent / partly / incorrect / ambiguous) and say what is right or wrong?	D5
C4	Grounding	Does the tutor use only the facts it was given and what the learner actually wrote (no invented history, no misquotes)?	D1
C5	Grammar	Are the tutor's rules, examples and claims about English correct and consistent?	D10
C6	CEFR appropriateness	Is the language, explanation depth and length comprehensible and useful at the stated CEFR level?	D4
C7	Hint quality and answer leakage	Do hints leave the tested step to the learner? Is support graduated? Was the answer given before an attempt or request?	D7 (+ D6)
C8	Formative assessment quality	Does the tutor check understanding with a task the learner must answer unaided, on the tested component?	D9 (+ D8)
C9	Evidence sufficiency	Is there enough in this conversation to judge the criteria above? (rate the case, not the tutor)	— (new)
C10	Overall instructional quality	Your overall professional judgement of the tutor's teaching in this conversation.	— (new)

> **About the reference rubric.** Appendix A reproduces the **draft** rubric `ltb-rubric-v2` (dimensions D1–D11). It is **not academically validated**. It is provided only as a discussion reference, so you can see what the automated scoring tried to measure. Use your own professional judgement; disagreeing with the draft is useful. Bracketed references in the draft such as "(CA2-T03)" point to older historical transcripts, **not** to cases in this package.

Case 1: EXP-A449

- **Scenario (fixture situation type):** `T01_limited_vocab`
- **Learner (synthetic):** age band **teen**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine

- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Gives the needed word(s) directly and simply, with one short model sentence from the lesson pattern; for A1 keeps language very simple and may gloss in the learner's language; checks with one tiny production prompt.
- **Unacceptable behaviour:** Long abstract grammar explanation; many new words at once; refusing to give the word; assuming the learner knows more than they showed.
- **Expected next move:** model + tiny production prompt
- **Word limit per reply:** 170

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> i want say my sister wake up early but i dont know word for every day

Turn 1: Tutor

> Good idea for a sentence! You can say "every day" at the end. Or you can use **always** (= every time, every day).

> Adverbs like *always* usually go **before the main verb**:
>
> *My friend **always** plays football after school.*
>
> One more thing: with *he / she / it*, the verb gets **-s**. So *wake* becomes **wakes** (*wake up* → *wakes up*).
>
> Your turn: write your sentence about your sister using **always**. Where do *always* and *wakes up* go?

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 2: EXP-C51A

- **Scenario (fixture situation type):** `T06_repeated_misconception`
- **Learner (synthetic):** age band **adult**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": {"masteryStatus": "emerging", "misconception": "Uses present perfect with finished past time expressions"}}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not**

> the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** After the same error repeats following an explanation, changes approach (simpler step, contrasting minimal pair, different example) instead of repeating the same explanation; keeps the learner trying.
- **Unacceptable behaviour:** Repeats the identical explanation; gives up; scolds; long lecture.
- **Expected next move:** change of approach + smaller step
- **Word limit per reply:** 240

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you explain have been and went?

Turn 1: Tutor

> Both talk about the past, but they answer different questions.
>
> **have/has been to** + place = present perfect. Use it for a **life experience** when the time is **not** said. - *I have been to Cairo.* (sometime in my life; when is not important)
>
> **went to** + place = past simple. Use it when you say a **finished time** (yesterday, last year, in 2019). - *I went to Cairo last year.*
>
> Here is how they work together in a short exchange (my example): - A: *Have you ever been to Italy?* - B: *Yes, I have. I went there in 2021.*
>
> Step 1: B answers about the experience → present perfect. Step 2: B adds a finished time ("in 2021") → switches to past simple.
>
> **Check:** Which is correct, and why? a) *She has been to Paris last summer.* b) *She went to Paris last summer.*

Turn 2: Learner *(learner answer to the tutor's own task)*

> I have gone to Alexandria last summer.

Turn 2: Tutor

> You've written your own sentence, which is useful practice. **"have gone"** is formed correctly (have + past participle).
>
> But the sentence as a whole needs another look. Focus on these two parts together:
>
> - *I **have gone** to Alexandria **last summer**.*
>
> Look at the time phrase at the end, **"last summer"**. Is that time finished or not? Then check whether the verb matches that kind of time.
>
> **Your turn:** Rewrite the sentence so the verb fits "last summer."

Turn 3: Learner *(learner answer to the tutor's own task)*

> I have been to Cairo two years ago.

Turn 3: Tutor

> **"have been"** is formed correctly (have + past participle). The problem is the same as last time: the verb doesn't match the time phrase **"two years ago."**
>
> Let's take a smaller step with a different example (mine):
>
> - *I **have eaten** sushi.* → no time given, just an experience
> - *I **ate** sushi **yesterday**.* → "yesterday" is finished, so past simple
>
> The rule: when you name a finished time (yesterday, last summer, two years ago), use the **past simple**, not have/has + past participle.
>
> "Two years ago" is a finished time. It's over, like "yesterday."
>
> **Your turn:** Rewrite *"I have been to Cairo two years ago"* using the past simple. Change only the verb.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 3: EXP-93CD

- **Scenario (fixture situation type):** `T07_hint_then_fail`
- **Learner (synthetic):** age band **teen**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Treats the hint-aided success as progress, not mastery; on the independent item, recognises the repeat error and gives targeted support plus another independent attempt; makes no mastery claim.
- **Unacceptable behaviour:** Declares mastery after the hinted success; ignores the independent error; gives the answer without an attempt.
- **Expected next move:** targeted support + another independent item

- **Word limit per reply:** 170

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Today's goal is to describe daily routines with the present simple.
>
> **Quick reminder:** with **he / she / it**, the verb usually gets **-s** or **-es**. Example: *My friend **plays** football after school.*
>
> **Exercise:** Correct the verb: "She go to bed at ten."
>
> Write the full correct sentence. What changes, and why?

Turn 2: Learner *(learner attempt at lesson item ex1)*

> She goed to bed at ten.

Turn 2: Tutor

> Good thinking: you saw that **"go"** needs to change. That's the right word to fix.
>
> The problem is the ending in **"goed"**. An **-ed** ending usually talks about the **past**. But this sentence is about a **routine**, something she does every day.
>
> Look again at the reminder I gave you and the example with *My friend...*.
>
> Try again: write the full sentence with the correct form of **go**.

Turn 3: Learner *(learner attempt at lesson item ex1)*

> She goes to bed at ten.

Turn 3: Tutor

> Correct: **"She goes to bed at ten."** is right.
>
> "Go" changes to **goes** because the subject is **she** and the sentence is about a routine. Verbs like *go* add **-es**, not only **-s**.

> Now try one on your own:
>
> **Exercise:** Correct the verb: "My dad watch TV after dinner."
>
> Write the full correct sentence. Then tell me: does this verb take **-s** or **-es**, and why?

Turn 4: Learner *(learner attempt at lesson item ex2)*

> Next one: My dad watch TV after dinner.

Turn 4: Tutor

> Yes, this is the next one! The sentence you wrote is still the **original** with the mistake in it, so now it's your turn to fix it.
>
> **Exercise:** Correct the verb: "My dad watch TV after dinner."
>
> Think about it like the last one: - Who is the subject? Is it like **he**, **she**, or **I**? - Look closely at the **end** of **"watch"**.
>
> Write the full correct sentence. Then tell me: does **watch** take **-s** or **-es**, and why?

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 4: EXP-7454

- **Scenario (fixture situation type):** `T03_blocking_error`
- **Learner (synthetic):** age band **child**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)

- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Identifies the error that blocks meaning, explains briefly with the lesson pattern, gives a hint and asks for a retry before giving the full answer.
- **Unacceptable behaviour:** Praises as correct; rewrites everything without letting the learner retry; lists every tiny error at once for a beginner.
- **Expected next move:** targeted feedback + retry
- **Word limit per reply:** 150

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Today's goal: talk about experiences and choose between the **present perfect** (*have/has + past participle*) and the **past simple** when we say *when* something happened.
>
> Here's your exercise:
>
> **Choose: "I ___ (visit) my aunt in Aswan last year."**
>
> Tip: look for a finished time word, like *yesterday* or *last week*. For example: *We played football yesterday.*

> Write your answer, and tell me which word in the sentence helped you choose.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> I have visited my aunt in Aswan last year and I never have seen her since now yesterday.

Turn 2: Tutor

> You built **"have visited"** correctly: *have* + past participle. That form is good to know for this lesson.
>
> But this sentence has a clue that changes things. Look at the last two words: **"last year"**.
>
> Ask yourself: is *last year* finished, or still going on? Then think about which form goes with that kind of time word.
>
> Try the sentence again: **"I ___ (visit) my aunt in Aswan last year."**
>
> (We can look at your second sentence about *since* afterwards.)

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 5: EXP-0BF4

- **Scenario (fixture situation type):** `T07_hint_then_fail`
- **Learner (synthetic):** age band **adult**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb

- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Treats the hint-aided success as progress, not mastery; on the independent item, recognises the repeat error and gives targeted support plus another independent attempt; makes no mastery claim.
- **Unacceptable behaviour:** Declares mastery after the hinted success; ignores the independent error; gives the answer without an attempt.
- **Expected next move:** targeted support + another independent item
- **Word limit per reply:** 200

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Our goal in this lesson is to describe daily routines with the present simple.
>
> **Quick reminder:** with *he, she* or *it*, the verb usually gets **-s** or **-es**. For example: *I work at nine. → He work**s** at nine.*
>
> **Your exercise:** Correct the verb: "She go to bed at ten."

> Write the full corrected sentence. Then tell me in one short line why you changed it.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> She goed to bed at ten.

Turn 2: Tutor

> You found the right word to fix. **go** is the verb that needs to change, and "She … to bed at ten" stays the same.
>
> The problem is the ending in **"goed"**.
>
> This sentence describes a **routine**, something she does every night. Look at your ending again and ask yourself: does "-ed" talk about every night, or about a different time?
>
> Try once more and write the full corrected sentence.

Turn 3: Learner *(learner attempt at lesson item ex1)*

> She goes to bed at ten.

Turn 3: Tutor

> Correct: **"She goes to bed at ten."**
>
> Two things are right here: - You used the present simple, because this is something she does every night. - You added **-es** for *she*. With **go**, the ending is **-es**, not only **-s**.
>
> Now try one on your own, with no hint:
>
> **Correct the verb:** "My dad watch TV after dinner."
>
> Write the full corrected sentence. Then tell me which word in the sentence decides the ending.

Turn 4: Learner *(learner attempt at lesson item ex2)*

> Next one: My dad watch TV after dinner.

Turn 4: Tutor

> Yes, this is the next one. Now it's your turn to fix it.

> **Correct the verb:** "My dad watch TV after dinner."
>
> Some help to start: - First, find the **person**. Who does the action? Is it *I, you, he, she* or *they*? - Then look at the **verb** and decide if it needs a change.
>
> Write the full corrected sentence. Then tell me which word decides the ending.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 6: EXP-DBC7

- **Scenario (fixture situation type):** `T04_minor_error`
- **Learner (synthetic):** age band **adult**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Recognises the answer is essentially correct, confirms clearly, at most mentions the minor surface point (capital letter/apostrophe) lightly, and moves forward.
- **Unacceptable behaviour:** Treats it as wrong; heavy correction of trivial points; long re-explanation.
- **Expected next move:** confirm + light note + next step
- **Word limit per reply:** 200

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Today's goal is to describe daily routines with the present simple.
>
> **Reminder:** with *he, she* or *it*, the verb usually takes **-s** or **-es**. For example: *I work* becomes *He work**s** in an office.*
>
> **Exercise 1** Correct the verb: "She go to bed at ten."
>
> Write the full corrected sentence.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> She go to bed at ten o clock — sorry, She goes to bed at ten

Turn 2: Tutor

> Correct: **"She goes to bed at ten."**
>
> Your self-correction is right. With *she*, the verb needs an ending, and *go* takes **-es**, not just -s. Verbs like *do* work the same way (*he does*).

> Small note: if you add "o'clock", it has an apostrophe.
>
> **Exercise 2** Correct the verb: "My dad watch TV after dinner."
>
> Write the full corrected sentence. Look closely at how *watch* ends before you add the ending.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 7: EXP-A3B8

- **Scenario (fixture situation type):** `T09_age_example`
- **Learner (synthetic):** age band **adult**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Gives an example in the lesson pattern that fits the learner's age band and the requested topic, at the right language level and length; checks with a short task.
- **Unacceptable behaviour:** Childish tone for adults or overly abstract/long for children; ignores the requested topic; off-level vocabulary.
- **Expected next move:** age-fitting model + short task
- **Word limit per reply:** 200

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you show me the rule with an example about the office?

Turn 1: Tutor

> Sure! First, think about your own workday: what time do you usually start?
>
> Here is the rule for habits (the present simple):
>
> - With **he / she / it**, add **-s** to the verb: *start → starts*, *go → goes*.
> - Put **always / usually / sometimes / never before** the main verb.
>
> My example about an office: *My manager **usually starts** work at nine. She **always checks** her emails first. I **never drink** coffee after four.*
>
> Your turn. Write one sentence with **sometimes** and the verb **have**: *My colleague ___ (sometimes / have) lunch at her desk.*

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 8: EXP-F274

- **Scenario (fixture situation type):** `T10_missing_context`
- **Learner (synthetic):** age band **adult**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: none listed.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": null, "priorEvidence": null}

Lesson and task context

No lesson was available to the tutor in this case (general practice). Judge the tutor on how it handled the missing context.

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Asks one short question to find the learner's goal (and offers a few concrete options); does not invent the learner's level, history or a curriculum.
- **Unacceptable behaviour:** Launches a long lesson on an invented topic; claims to know the learner's level or past work.
- **Expected next move:** clarify goal
- **Word limit per reply:** 240

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> hi, help me with english

Turn 1: Tutor

> Hi! Happy to help you practise English.
>
> What would you like to work on today? - Grammar (for example, verb tenses) - Vocabulary for everyday situations - Writing (emails or short texts)
>
> Or tell me your own topic!

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** no lesson exercise.

Record your scores in your score sheet under this case ID.

Case 9: EXP-A5A6

- **Scenario (fixture situation type):** `T11_off_topic`
- **Learner (synthetic):** age band **teen**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my ...\" and \"He is / She is ...\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my ..." and "He is / She is ...".
- **Objectives:** Introduce a family member with "This is my ..." · Say one fact about them with "He is / She is ..."
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my ... · He is ... / She is ...
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Acknowledges the request is outside this lesson, does not do non-language work for the learner, offers brief help that stays educational or links back to the lesson, and redirects.
- **Unacceptable behaviour:** Completes the off-topic task in full; ignores the lesson; refuses rudely.
- **Expected next move:** boundary + redirect
- **Word limit per reply:** 140

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Write my history essay about the pyramids for me

Turn 1: Tutor

> I'm your English tutor, so I can't write your history essay for you.
>
> Our goal today: introduce your family with **"This is my …"** and **"He is / She is …"**.
>
> Example (mine): *This is my mother. She is a teacher.*
>
> Try this one from the lesson:
>
> **Complete: "This is my brother. ___ is twelve."**
>
> Write the missing word.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 10: EXP-554D

- **Scenario (fixture situation type):** `T05_partially_correct`
- **Learner (synthetic):** age band **teen**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": {"masteryStatus": "developing"}}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits

- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Says specifically what is right and what is wrong, gives a hint for the wrong part, and asks for a retry.
- **Unacceptable behaviour:** Marks fully right or fully wrong; gives the full corrected answer immediately without a chance to retry.
- **Expected next move:** partial credit + hint + retry
- **Word limit per reply:** 170

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Here's one from the lesson:
>
> **Correct the verb: "She go to bed at ten."**
>
> Quick reminder of the pattern, with a different example: - I **play** football after school. - My brother **plays** football after school.
>
> Before you answer, check: 1. Who is the subject? 2. Does that subject need a change to the verb?
>
> Write the full correct sentence.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> She usually go to bed at ten.

Turn 2: Tutor

> Good placement: in "She usually go to bed at ten.", **usually** comes before the main verb. That part works.
>
> But the task is to correct the verb, and it's still the same as in the original sentence.
>
> Look again at the word **go**. Now check it against the subject **She**, using the two questions from before: 1. Who is the subject? 2. Does that subject need a change to the verb?
>
> Try again and write the full sentence. You can keep "usually" if you like.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 11: EXP-BFFE

- **Scenario (fixture situation type):** `T01_limited_vocab`
- **Learner (synthetic):** age band **child**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my ...\" and \"He is / She is ...\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my …" and "He is / She is …".
- **Objectives:** Introduce a family member with "This is my …" · Say one fact about them with "He is / She is …"
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my … · He is … / She is …
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Gives the needed word(s) directly and simply, with one short model sentence from the lesson pattern; for A1 keeps language very simple and may gloss in the learner's language; checks with one tiny production prompt.
- **Unacceptable behaviour:** Long abstract grammar explanation; many new words at once; refusing to give the word; assuming the learner knows more than they showed.
- **Expected next move:** model + tiny production prompt
- **Word limit per reply:** 90

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> how say ماما english? and baba?

Turn 1: Tutor

> Today's goal: introduce your family in English.
>
> - ماما = **mother** (or **mum**)
> - بابا = **father** (or **dad**)
>
> Example: **This is my mother.** = هذه أمي
>
> Your turn: point to Baba in a picture. Write one sentence: **This is my _____.**

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 12: EXP-EE3F

- **Scenario (fixture situation type):** `T08_mastery_move_on`
- **Learner (synthetic):** age band **adult**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": {"masteryStatus": "developing"}}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Recognises consistent unassisted success, reduces support, and moves forward with a transfer or slightly harder task; does not claim full mastery or invent progress percentages.
- **Unacceptable behaviour:** Keeps re-explaining basics; claims "you have mastered" or gives a percentage; repeats the same easy exercise.
- **Expected next move:** transfer / harder task

- **Word limit per reply:** 240

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Here's one from the lesson:
>
> **Choose: "I ___ (visit) my aunt in Aswan last year."**
>
> Before you write, plan your answer with a quick check: 1. Is there a time word in the sentence? 2. Is that time finished, or still continuing? 3. So which tense fits: present perfect (*have/has* + past participle) or past simple?
>
> Write your answer and add one short sentence explaining **why** you chose that tense.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> I visited my aunt in Aswan last year.

Turn 2: Tutor

> Correct! **"I visited my aunt in Aswan last year."**
>
> *Last year* is a finished time, so the past simple *visited* is the right choice.
>
> Here's the next one from the lesson:
>
> **Choose: "___ you ever ___ (see) a camel?"**
>
> Before you answer, check: - Is there a finished time in this sentence, or is it asking about life experience in general? - What does the word *ever* tell you?
>
> Write your answer and add a short reason for the tense you chose.

Turn 3: Learner *(learner attempt at lesson item ex2)*

> Have you ever seen a camel? I have seen one, but I saw it only once, in 2019.

Turn 3: Tutor

> Correct! **"Have you ever seen a camel?"** uses *have* + past participle *seen*, and *ever* asks about life experience in general, with no finished time.
>
> Your extra sentence also works well: **"I have seen one, but I saw it only once, in 2019."** You used the present perfect for the general experience, then switched to the past simple when you added a finished time (*in 2019*). That switch is the key point of this lesson.
>
> **Your next task:** write a short message (3 sentences) to a friend about a place you **have been to** or a food you **have tried**. - Use *ever* or *never* at least once. - Add one detail with a finished time (*last month, in 2021…*).
>
> When you've finished, reread it and check each verb: is there a finished time near it?

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 13: EXP-C58A

- **Scenario (fixture situation type):** `T04_minor_error`
- **Learner (synthetic):** age band **teen**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Recognises the answer is essentially correct, confirms clearly, at most mentions the minor surface point (capital letter/apostrophe) lightly, and moves forward.
- **Unacceptable behaviour:** Treats it as wrong; heavy correction of trivial points; long re-explanation.
- **Expected next move:** confirm + light note + next step
- **Word limit per reply:** 170

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Today's goal is to describe daily routines with the present simple.
>
> Quick reminder: with **he / she / it**, the verb usually gets **-s** or **-es**. Example: *I play football.* → *He play**s** football.*
>
> Here's your exercise:
>
> **Correct the verb: "She go to bed at ten."**
>
> Write the full correct sentence. Then tell me why you changed the verb.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> She go to bed at ten o clock — sorry, She goes to bed at ten

Turn 2: Tutor

> Correct: **"She goes to bed at ten."** You fixed it yourself, too.
>
> The verb follows **she**, so it needs an ending. For *go*, that ending is **-es**, so it becomes **goes**. Other verbs like this: *do → does*, *watch → watches*.
>
> Next one:
>
> **Correct the verb: "My dad watch TV after dinner."**
>
> Write the full sentence. Then tell me which word in the sentence tells you the verb needs to change.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 14: EXP-D76F

- **Scenario (fixture situation type):** `T08_mastery_move_on`
- **Learner (synthetic):** age band **teen**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": {"masteryStatus": "developing"}}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences

- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Recognises consistent unassisted success, reduces support, and moves forward with a transfer or slightly harder task; does not claim full mastery or invent progress percentages.
- **Unacceptable behaviour:** Keeps re-explaining basics; claims "you have mastered" or gives a percentage; repeats the same easy exercise.
- **Expected next move:** transfer / harder task
- **Word limit per reply:** 200

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Here's one from the lesson:
>
> **Choose: "I ___ (visit) my aunt in Aswan last year."**
>
> Before you answer, plan: 1. Read the whole sentence and look for any time words. 2. Decide which tense fits: present perfect (*have/has + past participle*) or past simple.
>
> Write your answer, and add one short sentence explaining **why** you chose that tense.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> I visited my aunt in Aswan last year.

Turn 2: Tutor

> Correct! "I visited my aunt in Aswan last year." **"Last year"** is a finished time, so the past simple *visited* is the right choice.
>
> You skipped the "why" sentence, and that's fine. Just remember that **checking for time words first** is what led you to the answer.
>
> Here's the next one:
>
> **Choose: "___ you ever ___ (see) a camel?"**
>
> Plan it the same way: 1. Look for time words. Is there a finished time here, or a different kind of word? 2. Pick the tense, then build the question.
>
> Write your answer and one short reason for your choice.

Turn 3: Learner *(learner attempt at lesson item ex2)*

> Have you ever seen a camel? I have seen one, but I saw it only once, in 2019.

Turn 3: Tutor

> Correct! "Have you ever seen a camel?" uses *have* + past participle *seen*, which fits because there is no finished time, just **ever**.
>
> Your extra sentences work too: "I have seen one" (experience, no time) and then "I saw it only once, in 2019" (past simple, because **in 2019** is a finished time). That's exactly the switch this lesson is about.
>
> Now a freer task. Write a short mini-chat (3 lines) about something you've done, like a sport, food, app or place: 1. A "Have you ever…?" question using **tried**, **met** or **been to** 2. A short answer 3. A detail with a finished time
>
> Before sending, check each verb: is there a finished time or not?

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 15: EXP-D688

- **Scenario (fixture situation type):** `T05_partially_correct`
- **Learner (synthetic):** age band **child**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": {"masteryStatus": "developing"}}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Says specifically what is right and what is wrong, gives a hint for the wrong part, and asks for a retry.
- **Unacceptable behaviour:** Marks fully right or fully wrong; gives the full corrected answer immediately without a chance to retry.
- **Expected next move:** partial credit + hint + retry
- **Word limit per reply:** 120

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Here is one from the lesson:
>
> **Correct the verb: "She go to bed at ten."**
>
> Tip: Look at the word before the verb. With **he**, **she** or **it**, what happens to the verb?
>
> My example: *My cat **sleeps** on the sofa.*
>
> Write the correct sentence.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> She usually go to bed at ten.

Turn 2: Tutor

> Nice try! You added **usually**, and it's in the right place, before the verb. 👍
>
> But one word still needs fixing. Look at the verb **go** in your sentence. Who goes to bed? Check the word **go** again.
>
> Can you write the sentence one more time?

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 16: EXP-69EC

- **Scenario (fixture situation type):** `T12_contradictory_evidence`
- **Learner (synthetic):** age band **teen**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.

- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": {"masteryStatus": "proficient"}}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Treats the school record (proficient) as one piece of evidence: notices the current error, probes with a quick check, and does not assume mastery or say the learner "already knows" it.
- **Unacceptable behaviour:** Ignores the error because the record says proficient; claims mastery; lectures from scratch as if the learner knows nothing.
- **Expected next move:** probe with a quick check
- **Word limit per reply:** 200

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner's own sentence)*

> I have met my teacher yesterday.

Turn 1: Tutor

> You have most of it. "have met" is a correctly formed present perfect: *have* + past participle.
>
> Let's sharpen one part. Look at the last word of your sentence, **"yesterday"**, and then look again at the verb **"have met"**.
>
> Ask yourself: does "yesterday" tell us *when* it happened, and is that time finished? Does that change which tense fits?
>
> Rewrite the sentence, and add one short line explaining **why** you chose that verb form.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 17: EXP-4137

- **Scenario (fixture situation type):** `T02_word_in_context`
- **Learner (synthetic):** age band **adult**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my ...\" and \"He is / She is ...\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my …" and "He is / She is …".
- **Objectives:** Introduce a family member with "This is my …" · Say one fact about them with "He is / She is …"
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my … · He is … / She is …
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Corrects the misunderstanding precisely with a contrast example in context; checks understanding with a short task.
- **Unacceptable behaviour:** Confirms the wrong meaning; vague answer; unrelated digression.
- **Expected next move:** contrastive example + check
- **Word limit per reply:** 160

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> In "This is my sister" — sister is the mother of me?

Turn 1: Tutor

> Good question. No, a **sister** is not your mother.
>
> - **mother** = the woman who is your parent
> - **sister** = a girl or woman with the same mother and father as you
>
> Example (mine): *This is my mother. She is a teacher. This is my sister. She is ten.*
>
> Our goal: introduce family with "This is my …" and "He is / She is …".
>
> Quick check: your mother's daughter (not you) is your **mother** or your **sister**?

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.

- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 18: EXP-4A7E

- **Scenario (fixture situation type):** `T01_limited_vocab`
- **Learner (synthetic):** age band **teen**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Gives the needed word(s) directly and simply, with one short model sentence from the lesson pattern; for A1 keeps language very simple and may gloss in the learner's language; checks with one tiny production prompt.

- **Unacceptable behaviour:** Long abstract grammar explanation; many new words at once; refusing to give the word; assuming the learner knows more than they showed.
- **Expected next move:** model + tiny production prompt
- **Word limit per reply:** 200

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> I want to say I have travelled a lot but I dont know how to say the word for going to many countries

Turn 1: Tutor

> Today's goal: talk about your experiences with the present perfect.
>
> For going to many countries, a very common phrase is **been to**:
>
> - *I've been to a lot of countries.*
> - *I've travelled a lot.* (this works too!)
>
> There's also an adjective: **well-travelled**, as in *My uncle is very well-travelled.*
>
> **Watch out:** if you say *when* you went, switch to the past simple: *I've been to Spain. I **went** there last summer.*
>
> **Your turn:** write one sentence about a place you **have been to**, and a second sentence saying **when** you went there.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 19: EXP-633C

- **Scenario (fixture situation type):** `T03_blocking_error`
- **Learner (synthetic):** age band **teen**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my ...\" and \"He is / She is ...\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my …" and "He is / She is …".
- **Objectives:** Introduce a family member with "This is my …" · Say one fact about them with "He is / She is …"
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my … · He is … / She is …
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Identifies the error that blocks meaning, explains briefly with the lesson pattern, gives a hint and asks for a retry before giving the full answer.
- **Unacceptable behaviour:** Praises as correct; rewrites everything without letting the learner retry; lists every tiny error at once for a beginner.
- **Expected next move:** targeted feedback + retry
- **Word limit per reply:** 140

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Today's goal: introduce a family member and say one fact about them.
>
> Here's the pattern, with a different example: *This is my sister.* ***She*** *is ten.*

> Now your turn. Fill in the gap with one word:
>
> **Complete: "This is my brother. ___ is twelve."**
>
> Think about who the brother is, then choose the right word. Write the full sentence.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> This is my brother. Mother is twelve.

Turn 2: Tutor

> "This is my brother." That first part is copied correctly.
>
> Now check the word you put in the gap: **"Mother"**.
>
> The first sentence is about your brother. Who is twelve: your brother or your mother?
>
> Look at the example again: *This is my sister.* ***She*** *is ten.* The gap word there is not a family word.
>
> Try again and write the full sentence.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 20: EXP-C23F

- **Scenario (fixture situation type):** `T05_partially_correct`
- **Learner (synthetic):** age band **adult**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": {"masteryStatus": "developing"}}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.

- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Says specifically what is right and what is wrong, gives a hint for the wrong part, and asks for a retry.
- **Unacceptable behaviour:** Marks fully right or fully wrong; gives the full corrected answer immediately without a chance to retry.
- **Expected next move:** partial credit + hint + retry
- **Word limit per reply:** 200

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Here is an exercise from this lesson:
>
> **Correct the verb: "She go to bed at ten."**

> A quick tip before you start: 1. Look at the subject first. Is it *I / you / we / they*, or *he / she / it*? 2. Then check the verb.
>
> Here is my own example of the pattern: *He **works** in a bank.*
>
> Write the full correct sentence. Then tell me which word you changed and why.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> She usually go to bed at ten.

Turn 2: Tutor

> You added **"usually"** in a good place: before the main verb. That part is correct.
>
> But the verb is still the same as in the exercise: **"go"**.
>
> Look at two words together: - the subject: **"She"** - the verb: **"go"**
>
> Check them against the tip from before. Which group is "She" in?
>
> Now write the sentence again. You can keep "usually" or leave it out.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 21: EXP-60A0

- **Scenario (fixture situation type):** `T03_blocking_error`
- **Learner (synthetic):** age band **child**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.

- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Identifies the error that blocks meaning, explains briefly with the lesson pattern, gives a hint and asks for a retry before giving the full answer.
- **Unacceptable behaviour:** Praises as correct; rewrites everything without letting the learner retry; lists every tiny error at once for a beginner.
- **Expected next move:** targeted feedback + retry
- **Word limit per reply:** 120

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Our goal today is to talk about daily routines, like what we do every day.
>
> **Quick reminder:** With **he / she / it**, the verb usually gets an **-s**. Example: *I play football.* → *He play**s** football.*

> **Your exercise:** Correct the verb: "She go to bed at ten."
>
> Write the full sentence with the correct verb. 😊

Turn 2: Learner *(learner attempt at lesson item ex1)*

> Yesterday she go to bed and every day she went to bed at ten.

Turn 2: Tutor

> You changed the verb, so you can see it needs fixing. 👍
>
> But this exercise is about a **routine**, something she does every day. Look again at your verb **"went"**. Is it the right form for every day?
>
> Try again with just the sentence from the exercise: "She go to bed at ten."

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 22: EXP-8643

- **Scenario (fixture situation type):** `T13_answer_request`
- **Learner (synthetic):** age band **child**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my ...\" and \"He is / She is ...\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my ..." and "He is / She is ...".
- **Objectives:** Introduce a family member with "This is my ..." · Say one fact about them with "He is / She is ..."
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my ... · He is ... / She is ...
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Encourages an attempt with a targeted hint first (the learner has not tried yet); gives the answer only with reasoning if the learner still cannot, then a similar item.
- **Unacceptable behaviour:** Immediately gives the full answer with no attempt; refuses all help.
- **Expected next move:** hint first
- **Word limit per reply:** 90

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Our goal: introduce a family member and say one thing about them.
>
> Remember the pattern. Here is my example: **This is my mother. She is a teacher.**
>
> Now you try. Write the missing word:
>
> Complete: "This is my brother. ___ is twelve."

Turn 2: Learner *(learner request (not an answer))*

> just tell me the answer pls

Turn 2: Tutor

> I'll show you the answer after you try once. Deal? 😊
>
> Here is a hint. Look at this word in the sentence: **brother**.
>
> Think about the person. Which word do we use for him?
>
> Now write just one word for the gap: "This is my brother. ___ is twelve."

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 23: EXP-E1E0

- **Scenario (fixture situation type):** `T10_missing_context`
- **Learner (synthetic):** age band **child**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: none listed.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": null, "priorEvidence": null}

Lesson and task context

No lesson was available to the tutor in this case (general practice). Judge the tutor on how it handled the missing context.

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Asks one short question to find the learner's goal (and offers a few concrete options); does not invent the learner's level, history or a curriculum.
- **Unacceptable behaviour:** Launches a long lesson on an invented topic; claims to know the learner's level or past work.
- **Expected next move:** clarify goal
- **Word limit per reply:** 120

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> hi, help me with english

Turn 1: Tutor

> Hi! I'm happy to help you with English! 😊
>
> What would you like to practise today?
>
> - New words (like animals or school)
> - Writing short sentences
> - Reading a little story
>
> Just pick one!

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** no lesson exercise.

Record your scores in your score sheet under this case ID.

Case 24: EXP-30B8

- **Scenario (fixture situation type):** `T08_mastery_move_on`
- **Learner (synthetic):** age band **teen**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": {"masteryStatus": "developing"}}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Recognises consistent unassisted success, reduces support, and moves forward with a transfer or slightly harder task; does not claim full mastery or invent progress percentages.
- **Unacceptable behaviour:** Keeps re-explaining basics; claims "you have mastered" or gives a percentage; repeats the same easy exercise.
- **Expected next move:** transfer / harder task
- **Word limit per reply:** 170

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Here's one from the lesson:
>
> **Correct the verb: "She go to bed at ten."**
>
> Quick reminder of the pattern (my example): - I **play** football after school. - He **plays** football after school.
>
> **Tip:** Before you write, look at the subject first. Ask yourself: is it *he*, *she* or *it*? Then check the verb.
>
> Write the full correct sentence. 😊

Turn 2: Learner *(learner attempt at lesson item ex1)*

> She goes to bed at ten.

Turn 2: Tutor

> Correct! **"She goes to bed at ten."** The subject is *she*, so the verb needs **-es**: *go → goes*.
>
> You checked the subject first, then fixed the verb. Use the same two steps on the next one.
>
> **Correct the verb: "My dad watch TV after dinner."**
>
> **Tip:** First ask yourself: is "my dad" like *he*, *she* or *it*? Then look at how the verb ends.
>
> Write the full correct sentence.

Turn 3: Learner *(learner attempt at lesson item ex2)*

> My dad watches TV after dinner. I always do my homework before that.

Turn 3: Tutor

> Correct! **"My dad watches TV after dinner."** *My dad = he*, so *watch* becomes **watches** (-es after *-ch*).
>
> Your extra sentence is correct too: **"I always do my homework before that."** *Always* comes before the main verb *do*.
>
> Now a freer task. Write **2–3 sentences** about a friend or family member's routine. Use *he* or *she*, and use at least one of: *always, usually, sometimes, never*.
>
> When you finish, check each verb and each adverb before you send.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 25: EXP-6DE8

- **Scenario (fixture situation type):** `T02_word_in_context`
- **Learner (synthetic):** age band **child**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.

- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my …\" and \"He is / She is …\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my …" and "He is / She is …".
- **Objectives:** Introduce a family member with "This is my …" · Say one fact about them with "He is / She is …"
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my … · He is … / She is …
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Corrects the misunderstanding precisely with a contrast example in context; checks understanding with a short task.
- **Unacceptable behaviour:** Confirms the wrong meaning; vague answer; unrelated digression.
- **Expected next move:** contrastive example + check
- **Word limit per reply:** 90

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> In "This is my sister" — sister is the mother of me?

Turn 1: Tutor

> Good question! No, a **sister** is not your mother.

- **mother** = the woman who has you (your mum)
- **sister** = a girl with the same mum and dad as you

Example: *This is my sister. She is ten.*

Your turn: a boy with the same mum and dad as you is your ___?

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 26: EXP-79B4

- **Scenario (fixture situation type):** `T06_repeated_misconception`
- **Learner (synthetic):** age band **adult**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": {"masteryStatus": "emerging", "misconception": "Omits -s with he/she/it"}}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

Expert use only, never shown to learners. The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** After the same error repeats following an explanation, changes approach (simpler step, contrasting minimal pair, different example) instead of repeating the same explanation; keeps the learner trying.
- **Unacceptable behaviour:** Repeats the identical explanation; gives up; scolds; long lecture.
- **Expected next move:** change of approach + smaller step
- **Word limit per reply:** 200

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you explain when I add -s to the verb?

Turn 1: Tutor

> Good question. Here is the rule for the **present simple**:
>
> **Step 1:** Look at the subject (the person doing the action). **Step 2:** Is it **he, she, it**, or one person or thing (my brother, Anna, the bus)? **Step 3:** If yes, add **-s** to the verb.
>
> With **I, you, we, they**, there is no -s.
>
> Example from the course: *My brother usually **gets** up at seven.* "My brother" = he, so get → **gets**.
>
> Compare: *I **get** up at seven.* (no -s)
>
> Your turn. Complete this sentence: *My sister ___ (work) in a bank.*

Turn 2: Learner *(learner answer to the tutor's own task)*

> My brother get up at six.

Turn 2: Tutor

> Good. This sentence fits our lesson about daily routines.
>
> Your sentence: *"My brother get up at six."*
>
> "My brother", "up at six" and the word order are correct. One word needs checking.
>
> Look at the verb **get**. Now look at the subject, **My brother**. Then check Step 2 and Step 3 from the rule above.
>
> Please write the sentence again with the verb fixed.

Turn 3: Learner *(learner answer to the tutor's own task)*

> My mother get up before me.

Turn 3: Tutor

> Your sentence: *"My mother get up before me."*
>
> "get up before me" is good English for a routine. The verb ending is still the problem, the same one as in your last sentence. Let's look at it another way.
>
> Look at this pair. It is my example, with a different verb:
>
> - *I **drink** tea in the morning.*
> - *My father **drinks** tea in the morning.*
>
> Same verb, but the ending changes when the subject changes.
>
> Now one small step. Answer this first: Is **"My mother"** like **I / you / we / they**, or like **he / she / it**?
>
> Then write your sentence again with the verb fixed.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 27: EXP-5B83

- **Scenario (fixture situation type):** `T13_answer_request`

- **Learner (synthetic):** age band **teen**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits
- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Encourages an attempt with a targeted hint first (the learner has not tried yet); gives the answer only with reasoning if the learner still cannot, then a similar item.
- **Unacceptable behaviour:** Immediately gives the full answer with no attempt; refuses all help.
- **Expected next move:** hint first
- **Word limit per reply:** 170

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Today's goal is to describe daily routines with the present simple.
>
> Quick reminder: with **he / she / it**, the verb usually gets **-s** or **-es**. My example: *He **plays** football after school.*
>
> Here's your exercise:
>
> **Correct the verb: "She go to bed at ten."**
>
> Write the full corrected sentence. Then tell me in a few words why you changed it.

Turn 2: Learner *(learner request (not an answer))*

> just tell me the answer pls

Turn 2: Tutor

> I get it, you want to move fast! 🙂 Have one try first, and I'll show you the answer right after. Even a wrong try helps you remember it better.
>
> Here's a hint. Look at two words only:
>
> - **She**
> - **go**
>
> Ask yourself: does **go** match **She**?
>
> Now write the full sentence your way: "She ___ to bed at ten."

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 28: EXP-FC03

- **Scenario (fixture situation type):** `T08_mastery_move_on`

- **Learner (synthetic):** age band **adult**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my ...\" and \"He is / She is ...\".", "priorEvidence": {"masteryStatus": "developing"}}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my ..." and "He is / She is ...".
- **Objectives:** Introduce a family member with "This is my ..." · Say one fact about them with "He is / She is ..."
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my ... · He is ... / She is ...
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Recognises consistent unassisted success, reduces support, and moves forward with a transfer or slightly harder task; does not claim full mastery or invent progress percentages.
- **Unacceptable behaviour:** Keeps re-explaining basics; claims "you have mastered" or gives a percentage; repeats the same easy exercise.
- **Expected next move:** transfer / harder task
- **Word limit per reply:** 160

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Here is one exercise from the lesson.
>
> **Remember the pattern:** *This is my sister.* ***She*** *is ten.*
>
> **Your exercise:** Complete: "This is my brother. ___ is twelve."
>
> Write the full sentence with your word in the gap.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> This is my brother. He is twelve.

Turn 2: Tutor

> Correct! "This is my brother. He is twelve." is right. "He" fits "brother".
>
> **Tip:** Before you write, look at the family word first. Then choose the word for the gap.
>
> **Next exercise:** Complete: "This is my grandmother. ___ is very kind."
>
> Write the full sentence with your word in the gap.

Turn 3: Learner *(learner attempt at lesson item ex2)*

> This is my grandmother. She is very kind. This is my father. He is tall.

Turn 3: Tutor

> Correct! "This is my grandmother. She is very kind." is right.
>
> Your extra sentences are correct too: "This is my father. He is tall."
>
> **Next task (your own sentences):** Write about **two** different family members. For each one, write one more fact.
>
> Frame: *This is my ___. ___ is ___.*
>
> **Check yourself:** After you write, look at each family word. Does the next word match it?

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.

- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 29: EXP-A337

- **Scenario (fixture situation type):** `T07_hint_then_fail`
- **Learner (synthetic):** age band **child**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my ...\" and \"He is / She is ...\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my ..." and "He is / She is ...".
- **Objectives:** Introduce a family member with "This is my ..." · Say one fact about them with "He is / She is ..."
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my ... · He is ... / She is ...
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Treats the hint-aided success as progress, not mastery; on the independent item, recognises the repeat error and gives targeted support plus another independent attempt; makes no mastery claim.
- **Unacceptable behaviour:** Declares mastery after the hinted success; ignores the independent error; gives the answer without an attempt.
- **Expected next move:** targeted support + another independent item
- **Word limit per reply:** 90

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Our goal: introduce a family member and say one thing about them.
>
> Example: "This is my sister. **She** is ten."
>
> Now you try. Write the missing word:
>
> Complete: "This is my brother. ___ is twelve."
>
> Tip: Is a brother a boy or a girl?

Turn 2: Learner *(learner attempt at lesson item ex1)*

> This is my brother. She is twelve.

Turn 2: Tutor

> Good try! You wrote a full sentence: "This is my brother. She is twelve." 👍
>
> One word needs checking. Look at the word **brother**. Then look at your word **She**.
>
> Do they match? 🤔
>
> Try again. Write the missing word:
>
> "This is my brother. ___ is twelve."

Turn 3: Learner *(learner attempt at lesson item ex1)*

> This is my brother. He is twelve.

Turn 3: Tutor

> Yes, that's right! ✅ "This is my brother. He is twelve." Now **He** matches **brother**.
>
> Let's check it on a new one. This time, no tip.

> Complete: "This is my grandmother. ___ is very kind."

Turn 4: Learner *(learner attempt at lesson item ex2)*

> OK. This is my grandmother. He is very kind.

Turn 4: Tutor

> "This is my grandmother." is correct. ✓
>
> One word needs checking. Look at **grandmother**. Then look at your word **He**.
>
> Do they match? Think about how you checked **brother**. 🤔
>
> Try again. Write the missing word:
>
> "This is my grandmother. ___ is very kind."

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 30: EXP-07EE

- **Scenario (fixture situation type):** `T02_word_in_context`
- **Learner (synthetic):** age band **child**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions

- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Corrects the misunderstanding precisely with a contrast example in context; checks understanding with a short task.
- **Unacceptable behaviour:** Confirms the wrong meaning; vague answer; unrelated digression.
- **Expected next move:** contrastive example + check
- **Word limit per reply:** 150

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> If I say "I have been to Luxor", does it mean I am in Luxor now?

Turn 1: Tutor

> Good question! **No.** "I have been to Luxor" means you visited Luxor at some time in your life, and now you are back. It is a **life experience**.
>
> If you add **when** it happened, use the **past simple**:
>
> - *I have been to Luxor.* (an experience, no time)
> - *I **went** to Luxor **last summer**.* (a finished time)
>
> Your turn: complete this sentence about a place you have visited.
>
> "I have been to _____. I _____ there _____."

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 31: EXP-11FA

- **Scenario (fixture situation type):** `T09_age_example`
- **Learner (synthetic):** age band **child**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my ...\" and \"He is / She is ...\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my ..." and "He is / She is ...".
- **Objectives:** Introduce a family member with "This is my ..." · Say one fact about them with "He is / She is ..."
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my ... · He is ... / She is ...
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Gives an example in the lesson pattern that fits the learner's age band and the requested topic, at the right language level and length; checks with a short task.

- **Unacceptable behaviour:** Childish tone for adults or overly abstract/long for children; ignores the requested topic; off-level vocabulary.
- **Expected next move:** age-fitting model + short task
- **Word limit per reply:** 90

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me an example about my teacher?

Turn 1: Tutor

> Sure! Here is my example:
>
> **This is my teacher. She is kind.**
>
> - **This is my …** introduces a person.
> - Use **She** for a woman and **He** for a man.
>
> Our lesson uses family words too, like *mother* or *brother*.
>
> Your turn: complete it. **This is my father. ___ is tall.**

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 32: EXP-1876

- **Scenario (fixture situation type):** `T07_hint_then_fail`
- **Learner (synthetic):** age band **teen**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my …\" and \"He is / She is …\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my …" and "He is / She is …".
- **Objectives:** Introduce a family member with "This is my …" · Say one fact about them with "He is / She is …"

- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my … · He is … / She is …
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Treats the hint-aided success as progress, not mastery; on the independent item, recognises the repeat error and gives targeted support plus another independent attempt; makes no mastery claim.
- **Unacceptable behaviour:** Declares mastery after the hinted success; ignores the independent error; gives the answer without an attempt.

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Today's goal: introduce a family member with "This is my …" and say one fact with "He is / She is …".
>
> Example from the course: *This is my sister. **She** is ten.*
>
> Your turn. Fill the gap with one word:
>
> **Complete: "This is my brother. ___ is twelve."**

> Tip: look at the family word first. Is it a boy or a girl?

Turn 2: Learner *(learner attempt at lesson item ex1)*

> This is my brother. She is twelve.

Turn 2: Tutor

> "This is my brother." This part is correct. The family word is in the right place.
>
> The gap is in the second sentence. Check the word "She".
>
> Look again at the word "brother". Then check if "She" matches it.
>
> Try again: write the full second sentence.

Turn 3: Learner *(learner attempt at lesson item ex1)*

> This is my brother. He is twelve.

Turn 3: Tutor

> Correct! "This is my brother. He is twelve." Now "He" matches "brother". Both sentences work together.
>
> You fixed this one after a hint. Now try a new one on your own, with no tip this time:
>
> **Complete: "This is my grandmother. ___ is very kind."**
>
> Write the full second sentence.

Turn 4: Learner *(learner attempt at lesson item ex2)*

> OK. This is my grandmother. He is very kind.

Turn 4: Tutor

> "This is my grandmother." This first sentence is correct.
>
> The problem is in the second sentence, in the word "He".
>
> Look at the family word "grandmother" again. Then check if "He" matches it, the same way you checked "brother" in the last exercise.

> Try again: write the full second sentence.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 33: EXP-679F

- **Scenario (fixture situation type):** `T09_age_example`
- **Learner (synthetic):** age band **child**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Gives an example in the lesson pattern that fits the learner's age band and the requested topic, at the right language level and length; checks with a short task.
- **Unacceptable behaviour:** Childish tone for adults or overly abstract/long for children; ignores the requested topic; off-level vocabulary.
- **Expected next move:** age-fitting model + short task
- **Word limit per reply:** 150

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Give me an example about drawing, please.

Turn 1: Tutor

> Our goal: talk about experiences with **have/has + past participle**, and switch to the past simple when we say a finished time.
>
> Here is my example about drawing:
>
> - **Have you ever drawn** a dragon? (any time in your life)
> - Yes, I **have**. I **drew** one **last week** in art class. (finished time: *last week*)
>
> *Drawn* is the past participle of *draw*. *Drew* is the past simple.
>
> Your turn: complete this sentence. "My sister ___ (draw) a cat yesterday."

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 34: EXP-2EE9

- **Scenario (fixture situation type):** `T11_off_topic`
- **Learner (synthetic):** age band **child**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished

times.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Acknowledges the request is outside this lesson, does not do non-language work for the learner, offers brief help that stays educational or links back to the lesson, and redirects.
- **Unacceptable behaviour:** Completes the off-topic task in full; ignores the lesson; refuses rudely.
- **Expected next move:** boundary + redirect
- **Word limit per reply:** 150

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you do my maths homework? 25 + 37

Turn 1: Tutor

> I'm your English tutor, so I can't do your maths homework. But I can help you say it in English! For example: "I have already finished my maths homework."
>
> Today's goal: talk about things you have done in your life, like "Have you ever...?"
>
> Let's try one from your lesson:
>
> **Choose: "___ you ever ___ (see) a camel?"**
>
> Write the full question.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 35: EXP-EEE8

- **Scenario (fixture situation type):** `T04_minor_error`
- **Learner (synthetic):** age band **teen**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Recognises the answer is essentially correct, confirms clearly, at most mentions the minor surface point (capital letter/apostrophe) lightly, and moves forward.
- **Unacceptable behaviour:** Treats it as wrong; heavy correction of trivial points; long re-explanation.
- **Expected next move:** confirm + light note + next step
- **Word limit per reply:** 200

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Today's goal: talk about life experiences with the present perfect, and switch to the past simple when there's a finished time.
>
> Here's your exercise:
>
> **Choose: "I ___ (visit) my aunt in Aswan last year."**
>
> Quick tip: look for a time word in the sentence. Does it show a finished time or not?
>
> Example of the pattern: *"My friend **joined** the football team last month."* "Last month" is finished, so it uses the past simple.
>
> Write your answer, and add one short sentence explaining why you chose that form. 🙂

Turn 2: Learner *(learner attempt at lesson item ex1)*

> I visited my aunt in aswan last year.

Turn 2: Tutor

> Correct! "I visited my aunt in aswan last year" uses the past simple, which fits because **"last year"** is a finished time. One small slip: **Aswan** needs a capital A (it's a place name).
>
> Now the other side of the lesson. When there's **no** finished time and you're asking about life experience in general, the form changes.
>
> Here's your next exercise:
>
> **Choose: "___ you ever ___ (see) a camel?"**
>
> Fill in both gaps. Then add a short answer about yourself (yes or no) in a full sentence.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 36: EXP-EEE1

- **Scenario (fixture situation type):** `T08_mastery_move_on`
- **Learner (synthetic):** age band **child**, CEFR estimate **A2**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.", "priorEvidence": {"masteryStatus": "developing"}}

Lesson and task context (what the tutor received)

- **Lesson:** My daily routine
- **Objective:** Describe daily routines with the present simple, including he/she/it + -s and adverbs of frequency.
- **Objectives:** Describe a routine with the present simple · Use he/she/it + -s · Place adverbs of frequency before the main verb
- **Success criteria:** Adds -s/-es for he/she/it · Puts always/usually/sometimes/never before the main verb
- **Grammar:** present simple (he/she/it + -s) · adverbs of frequency before the main verb
- **Vocabulary:** get up · have breakfast · go to school · go to work · usually · sometimes · never · always
- **Functions:** describing habits

- **Lesson examples:** My brother usually gets up at seven. · I never have coffee in the evening.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Correct the verb: "She go to bed at ten."	She goes to bed at ten / goes	single-ending (third-person -s/-es)
ex2	Correct the verb: "My dad watch TV after dinner."	My dad watches TV after dinner / watches	single-ending (third-person -s/-es)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Recognises consistent unassisted success, reduces support, and moves forward with a transfer or slightly harder task; does not claim full mastery or invent progress percentages.
- **Unacceptable behaviour:** Keeps re-explaining basics; claims "you have mastered" or gives a percentage; repeats the same easy exercise.
- **Expected next move:** transfer / harder task
- **Word limit per reply:** 120

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Here is one from our lesson.
>
> **Correct the verb:** "She go to bed at ten."
>
> Tip: with **he / she / it**, the verb usually gets an **-s** or **-es**. Example: *I play games.* → *My brother **plays** games.*
>
> Write the whole sentence with the correct verb. You can do it!

Turn 2: Learner *(learner attempt at lesson item ex1)*

> She goes to bed at ten.

Turn 2: Tutor

> Yes, that's correct! ✅ **"She goes to bed at ten."**
>
> With **she**, the verb **go** becomes **goes**. You added the **-es** in the right place.
>
> Here is the next one:
>
> **Correct the verb:** "My dad watch TV after dinner."
>
> Write the whole sentence again with the correct verb.

Turn 3: Learner *(learner attempt at lesson item ex2)*

> My dad watches TV after dinner. I always do my homework before that.

Turn 3: Tutor

> Yes, that's correct! ✅ **"My dad watches TV after dinner."** You added **-es** to *watch*.
>
> Your extra sentence is correct too: **"I always do my homework before that."** *Always* comes before the verb *do*. 👍
>
> Now a freer task: write **two sentences** about someone in your family. Use **he** or **she**, and use **usually**, **sometimes** or **never**.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** single-ending (third-person -s/-es).

Record your scores in your score sheet under this case ID.

Case 37: EXP-3A9B

- **Scenario (fixture situation type):** `T10_missing_context`
- **Learner (synthetic):** age band **adult**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: none listed.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": null, "priorEvidence": null}

Lesson and task context

No lesson was available to the tutor in this case (general practice). Judge the tutor on how it handled the missing context.

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Asks one short question to find the learner's goal (and offers a few concrete options); does not invent the learner's level, history or a curriculum.
- **Unacceptable behaviour:** Launches a long lesson on an invented topic; claims to know the learner's level or past work.
- **Expected next move:** clarify goal
- **Word limit per reply:** 160

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> hi, help me with english

Turn 1: Tutor

> Hi! Happy to help you with English.
>
> What do you want to practise today?
>
> - Introducing yourself
> - Ordering food
> - Simple grammar (like "I am / you are")
>
> Just write one, or tell me your own idea.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** no lesson exercise.

Record your scores in your score sheet under this case ID.

Case 38: EXP-96EB

- **Scenario (fixture situation type):** `T13_answer_request`
- **Learner (synthetic):** age band **teen**, CEFR estimate **A1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.

- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Introduce family members using \"This is my …\" and \"He is / She is …\".", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Talking about my family
- **Objective:** Introduce family members using "This is my …" and "He is / She is …".
- **Objectives:** Introduce a family member with "This is my …" · Say one fact about them with "He is / She is …"
- **Success criteria:** Uses "This is my + family word" correctly · Chooses he/she correctly
- **Grammar:** This is my … · He is … / She is …
- **Vocabulary:** mother · father · brother · sister · grandmother · grandfather
- **Functions:** introducing people
- **Lesson examples:** This is my sister. She is ten. · This is my father. He is a driver.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Complete: "This is my brother. ___ is twelve."	He is twelve / He / This is my brother. He is twelve	two-option (he/she pronoun choice)
ex2	Complete: "This is my grandmother. ___ is very kind."	She is very kind / She / This is my grandmother. She is very kind	two-option (he/she pronoun choice)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Encourages an attempt with a targeted hint first (the learner has not tried yet); gives the answer only with reasoning if the learner still cannot, then a similar item.
- **Unacceptable behaviour:** Immediately gives the full answer with no attempt; refuses all help.
- **Expected next move:** hint first
- **Word limit per reply:** 140

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Today's goal is to **introduce a family member** and say one fact about them.
>
> Here's the pattern: *This is my sister.* ***She*** *is ten.* (Use **she** for a girl or woman, **he** for a boy or man.)
>
> Your turn. Fill in the gap:
>
> **Complete: "This is my brother. ___ is twelve."**
>
> Type the missing word.

Turn 2: Learner *(learner request (not an answer))*

> just tell me the answer pls

Turn 2: Tutor

> Have one try first. I'll show you the answer right after, promise!
>
> Hint: look at the family word in the first sentence.
>
> *This is my* ***brother****.*
>
> Ask yourself: is this person a boy or a girl? Then check the rule above for which word to use.
>
> Type your one word for the gap. A guess is fine!

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** two-option (he/she pronoun choice).

Record your scores in your score sheet under this case ID.

Case 39: EXP-0F07

- **Scenario (fixture situation type):** `T13_answer_request`
- **Learner (synthetic):** age band **child**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished times.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Encourages an attempt with a targeted hint first (the learner has not tried yet); gives the answer only with reasoning if the learner still cannot, then a similar item.
- **Unacceptable behaviour:** Immediately gives the full answer with no attempt; refuses all help.
- **Expected next move:** hint first
- **Word limit per reply:** 150

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Sure! Our goal today: talk about life experiences and choose between the present perfect and the past simple.
>
> Here is your exercise:
>
> **Choose: "I ___ (visit) my aunt in Aswan last year."**
>
> Tip: Look for a **time word**. Does it tell us *when* it happened?
>
> My own example: *"We played football **yesterday**."* (*yesterday* is a finished time.)
>
> Write the full sentence and tell me **why** you chose that form.

Turn 2: Learner *(learner request (not an answer))*

> just tell me the answer pls

Turn 2: Tutor

> I'll show you the answer right after you try once. A try helps you remember it much better!
>
> Here's one hint:
>
> Look at the **last two words** of the sentence: **"last year"**.
>
> Ask yourself: is last year **finished**, or is it still going on?
>
> Then look at my example again: *"We played football yesterday."*
>
> Now write the full sentence with **visit** in the right form. A guess is okay!

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Case 40: EXP-892B

- **Scenario (fixture situation type):** `T04_minor_error`
- **Learner (synthetic):** age band **adult**, CEFR estimate **B1**. Target language: English (EFL). Skills listed by the lesson: writing, reading.
- **Learner facts the tutor received:** {"knownLanguages": null, "goal": "Learn: Talk about life experiences with the present perfect and contrast it with the past simple for finished

times.", "priorEvidence": null}

Lesson and task context (what the tutor received)

- **Lesson:** Life experiences
- **Objective:** Talk about life experiences with the present perfect and contrast it with the past simple for finished times.
- **Objectives:** Ask and answer "Have you ever …?" · Use the past simple, not the present perfect, with a finished time (yesterday, last year)
- **Success criteria:** Forms have/has + past participle · Switches to past simple when a finished time is given
- **Grammar:** present perfect for experiences · past simple with finished time expressions
- **Vocabulary:** ever · never · already · yet · been to · tried · met
- **Functions:** talking about experiences
- **Lesson examples:** Have you ever tried sushi? Yes, I have. I tried it last summer. · She has never been to the sea.

Lesson exercises and acceptable answers

> **Expert use only, never shown to learners.** The tutor saw the exercise prompts but **not** the acceptable answers.

Exercise	Prompt (as given to the tutor)	Acceptable answers (course key)	Item type (extractor label)
ex1	Choose: "I ___ (visit) my aunt in Aswan last year."	I visited my aunt in Aswan last year / visited	verb-form choice (past simple / present perfect)
ex2	Choose: "___ you ever ___ (see) a camel?"	Have you ever seen a camel / seen	verb-form choice (past simple / present perfect)

Case design notes (written by the benchmark designers before any run; these are not scores)

- **Expected behaviour:** Recognises the answer is essentially correct, confirms clearly, at most mentions the minor surface point (capital letter/apostrophe) lightly, and moves forward.
- **Unacceptable behaviour:** Treats it as wrong; heavy correction of trivial points; long re-explanation.
- **Expected next move:** confirm + light note + next step
- **Word limit per reply:** 240

Conversation (verbatim; complete; learner text is scripted and synthetic)

Turn 1: Learner *(learner request (not an answer))*

> Can you give me one exercise from this lesson?

Turn 1: Tutor

> Today's goal is to talk about life experiences with the **present perfect**, and to switch to the **past simple** when a finished time is mentioned.
>
> Here's an exercise from the lesson:
>
> **[ex1] Choose: "I ___ (visit) my aunt in Aswan last year."**
>
> A tip before you answer: look for a time expression in the sentence. Ask yourself whether that time is **finished** or **still continuing**.
>
> My own example, not the answer: *"We **moved** to a new flat in 2020."* The year 2020 is finished, so the verb is in the past simple.
>
> Write your answer, and add one short line explaining why you chose that verb form.

Turn 2: Learner *(learner attempt at lesson item ex1)*

> I visited my aunt in aswan last year.

Turn 2: Tutor

> Correct: **"I visited my aunt in aswan last year."** "Last year" is a finished time, so the past simple **visited** is the right form. One small slip: city names take a capital letter, so it's **Aswan**.
>
> Now the other side of the lesson: an experience question with **no** finished time.
>
> **[ex2] Choose: "___ you ever ___ (see) a camel?"**
>
> Before you write, look at the word **ever**. It asks about any time in your life up to now, not a specific finished time.
>
> Write the full question. Then add a one-line answer about yourself, using the same tense as the question.

Evidence locator (factual; from the case design)

- **For C7 (hints):** the turns before the learner's first labelled attempt are the "before any attempt" window. Learner turns labelled *request* are not attempts.
- **For C8 (formative checks):** look at the closing task or question of each tutor turn.
- **Exercise type(s):** verb-form choice (past simple / present perfect).

Record your scores in your score sheet under this case ID.

Appendix A: draft rubric `ltb-rubric-v2` (DISCUSSION REFERENCE ONLY, NOT VALIDATED)

Verbatim extract of §1 of `rubric_v2_draft.md`. Its outcome rules are deliberately left out.

1. Dimensions and anchors (0–4)

Each anchor gives the observable behaviour; "e.g." lines are drawn from the v1.0 transcripts.

D1 Context grounding (`context_grounding`)

Uses only supplied facts (lesson, trusted age band, CEFR estimate, prior evidence) and what the learner wrote. Keeps course content, learner text and the tutor's own examples apart.

Score	Anchor
0	Invents learner history, results or level, or contradicts supplied facts.
1	Attributes an answer or knowledge the learner did not show **and** builds the next step on it.
2	One unsupported assumption or misquote that does not drive the next step. e.g. "The words "go to bed late" are a good start", when the learner wrote "she went to bed late" (CA2-T03); "you probably already know…" with no evidence (TB1-T13).
3	Uses supplied context correctly; quotes the learner exactly; invents nothing.
4	As 3, and visibly adapts to this learner's exact evidence (their error, their topic) while labelling its own examples as examples.

D2 Task alignment (`task_alignment`)

Works on the lesson objective and the active item. Uses lesson items when they exist.

Score	Anchor
0	Unrelated to the lesson, or does the off-topic task.
1	Mostly off-objective, or replaces a delivered lesson item with unrelated content.
2	On objective but drifts (e.g. introduces a second grammar point as if it were the target).
3	On objective. A correct common word outside the list (e.g. "often") is not drift.
4	Tightly aligned: uses the lesson's own items and patterns, and moves through them in order.

D3 Age appropriateness (`age_fit`)

Tone, topics and assumed autonomy for the **trusted age band only**. Length is not scored here.

Score	Anchor
0	Content unsuitable for the band (critical).
1	Register mostly wrong (e.g. baby talk to adults).
2	One clear register slip (e.g. a childish phrasing for a teen, TA1-T07).
3	Fits the band.
4	Examples and tone chosen for the band with evident care.

D4 Proficiency appropriateness (`cefr_fit`)

Vocabulary, structures, explanation depth and length for the CEFR estimate. Judged against the case word limit and its **effect on comprehension**. Never inferred from age.

Score	Anchor
0	Far above level; unusable.
1	Mostly above or below level.
2	Several unglossed above-level terms, or length that clearly overloads (two tasks, repeated rule).
3	Comprehensible at the level.
4	Precisely pitched: one step, new items glossed.

D5 Answer sufficiency judgement (`answer_judgement`)

Did the tutor classify the learner's answer correctly? The classes are: correct; equivalent wording; correct but for a different item; correct but unrelated; partially correct; incorrect; ambiguous.

Score	Anchor
0	Confirms a wrong answer as correct on the lesson target (critical).
1	Rejects or re-tests a correct answer, or treats an unrelated correct sentence as evidence for the objective.
2	Recognises correctness but mis-handles the class (e.g. re-issues the same item for a component already shown, CA2-T08 t2–t3).
3	Classifies correctly; credits what is shown; asks only about the undemonstrated part.
4	As 3, with the reason made visible to the learner in one line.

D6 Scaffolding quality (`scaffolding`)

Support level matches the evidence. Escalates one step after a repeated error and fades after success.

Score	Anchor
0	Ignores the learner's reply.
1	Leaves a stuck learner without a next step, or jumps straight to a full explanation on a first error.
2	Uses the reply, but support is mis-levelled (the same intensity regardless of evidence).
3	Adapts to the reply; the learner keeps doing the tested step.
4	Visible contingent escalation or fading, justified by the reply (e.g. AA1-T07 t4 after a repeated error).

D7 Hint leakage (`hint_leakage`, higher = better)

After the hint, does the learner still have to perform the tested step? Hint ladder levels L1–L6 are defined in the diagnostic (`hint_scaffolding_analysis.md` §3).

Score	Anchor
0	Gives the full answer with no attempt and no request (major).
1	Names the tested form before any attempt. e.g. "*have* → **has**" (TA2-T13 t2); "Its past simple is *went*, and its past participle is *gone*" (AB1-T13 t2). (major)

Score	Anchor
2	Near-reveal too early: on a binary or single-ending item, the first hint resolves the choice (e.g. "A brother is a boy, so use He", TA1-T13 t2), or a model of the same answer sits next to the item (CA1-T06 t3).
3	Hint at a level that fits the attempts so far; the tested step stays with the learner.
4	As 3, and the first hint is an attention or conceptual cue that the learner can act on.
—	A full explanation after repeated failure, or when the learner asks having tried, is **not** leakage (L6): score 3–4.

D8 Independent learner performance (`independence`)

Separates assisted from unassisted evidence.

Score	Anchor
0	Claims mastery or progress without evidence (critical if it uses invented figures).
1	Treats a hinted success as independent, or one correct answer as mastery.
2	Moves on after a helped success without any unaided check.
3	After a helped success, gives an unaided item on the same point; after an unaided success, moves forward.
4	As 3, and states accurately what the learner has shown so far, without claiming mastery.

D9 Formative checking (`formative_check`)

A check that the learner must answer **unaided** and that tests the objective's component.

Score	Anchor
0	Invented progress or mastery claims.
1	No check where one was clearly needed.
2	A check exists but can be answered by copying (e.g. "This is my mother. ___" directly under "This is my grandmother. She is…", CA1-T06 t3), or tests a different component. "Does that make sense?" alone also scores 2.
3	An unaided check on the tested component.
4	A transfer or why-check matched to the success criteria (e.g. "write two sentences about yourself: something you have never done…", CB1-T08 t3).
n/a	A check is not due (clarification turn, redirect), recorded as `check_not_due`.

D10 Grammar accuracy (`grammar_accuracy`)

Rules, examples and claims about English are true and agree with each other.

Score	Anchor
0	Teaches a rule or form that makes the learner's target sentence wrong (critical).
1	A false statement about the lesson target that could mislead (major). e.g. "verbs ending in -ch add -es, like go → goes" (CA2-T07 t4).

Score	Anchor
2	A misleading statement about an example or a side point. e.g. "Only one word changes" for a pair where two words change (AA1-T06 t3); a negative listed under the affirmative "+ -s" rule (AA2-T11 t1).
3	Correct; simplifications are appropriate to the level ("always = every time" at A2).
4	As 3, with an example that exactly instantiates the rule and a cautious "usually" where needed.

D11 Learning progression (`progression`)

Moves through the objective using evidence. Never repeats a demonstrated component; never skips an undemonstrated one.

Score	Anchor
0	Blocks progress (keeps the learner on a finished task) **and** misjudges the evidence.
1	Presents the same item three or more times after the component was shown (CA2-T08, TA2-T08).
2	Progresses, but re-teaches basics already shown, or skips an undemonstrated criterion.
3	Progresses on evidence: next item or transfer after success; retry on the same gap after failure.
4	As 3, and the next task targets the criterion not yet shown.
